Challenges for Today's Healthcare Professionals

Medicine evolves rapidly, with new guidelines, treatments, diagnostics, and discoveries emerging frequently, making it hard to stay updated and confident in decision-making.

Clinical situations are often unclear or atypical, and **each patient is unique,** making it challenging to apply theoretical knowledge effectively to real-world patient care.

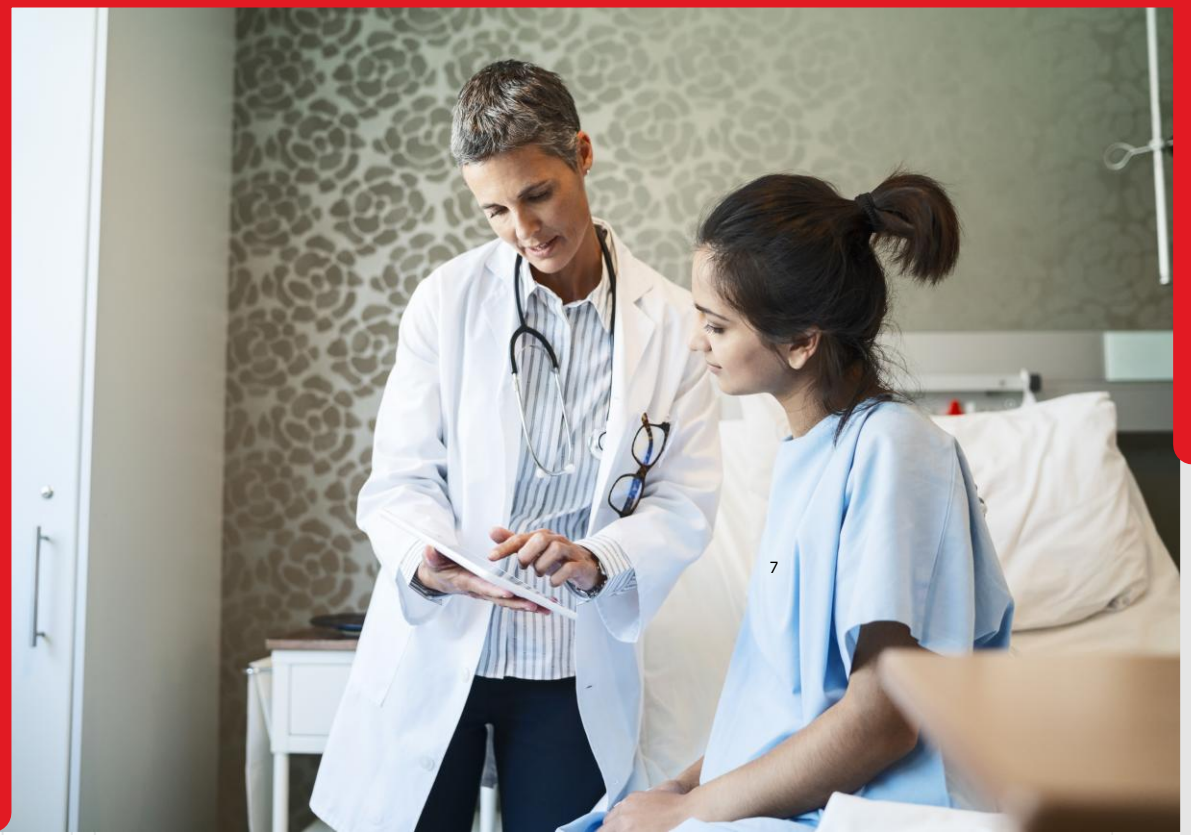

With an abundance of information available, healthcare professionals **need reliable, evidence-based tools** to support decision-making and improve patient outcomes.

Clinicians face heavy workloads and time pressures, leaving little room for traditional learning. They often need quick, accurate answers during critical moments, balancing urgency with precision.

You need efficient, high-quality resources…

…to build upon your knowledge and achieve the best possible outcomes for your patients.

Access

Expert content

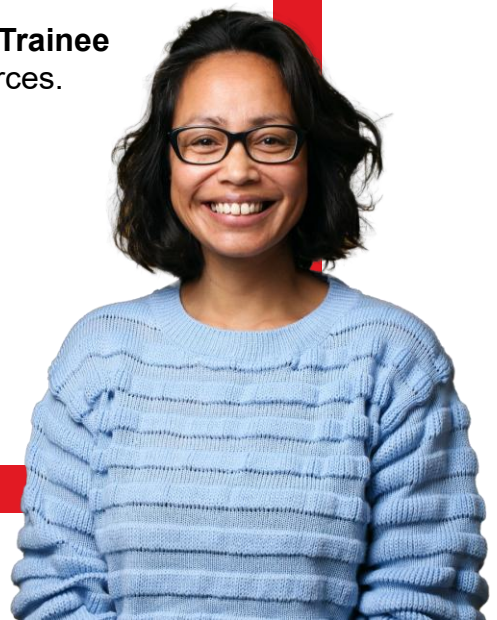

- **Content developed by world-renowned experts** in their fields — the best professional minds in discipline
- **Trusted, moderated, and continually updated** by an expert team of content and platform specialists
- **Content is easily searchable** and can be viewed, watched and listened to on **any device**

Accessible anywhere – App or Desktop

- Login on site or remote **24 x 7 Unlimited via desktop and App**
- All you need is an internet **connection to log in** to any of our interactive learning solutions

Empowering the Clinical Workforce from Interns to Specialist

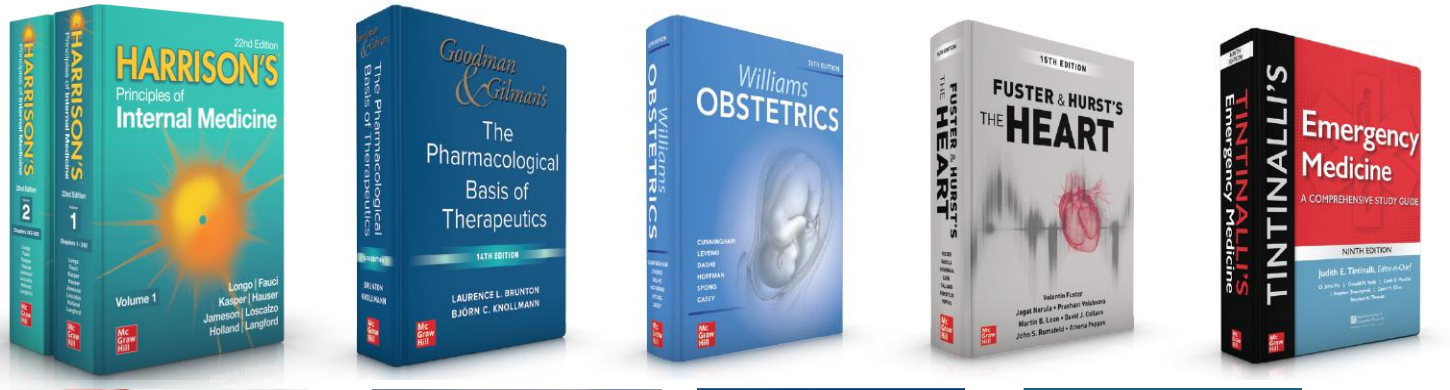

- Content coverage for all subjects taught in in Health and Medicine, from **Surgery to Emergency, Pharmacy, Rehabilitation, Primary Care, Pediatrics, OBGYN.**
- Extensive **CPD and Trainee development** resources.

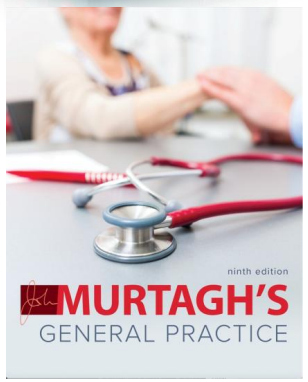

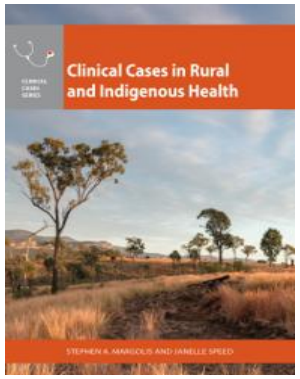

Mc Graw Hill Access

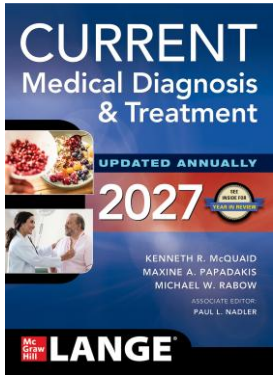

Evidence based medical expertise from the best minds in medicine globally and locally

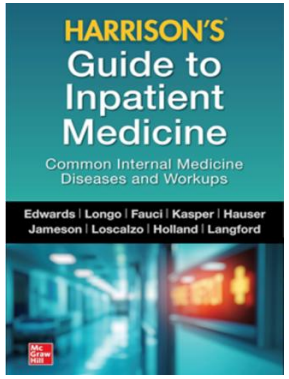

Access offers robust book libraries that contain an exceptional collection covering all medical and health specialties, including the latest editions of fully searchable landmark texts such as:

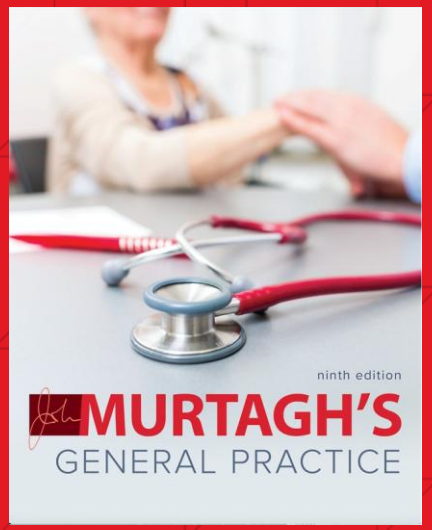

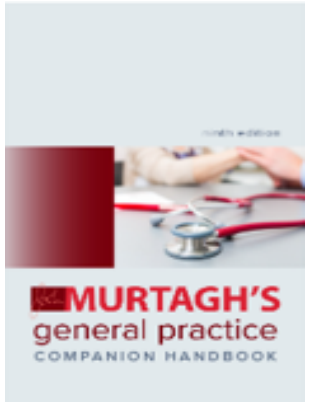

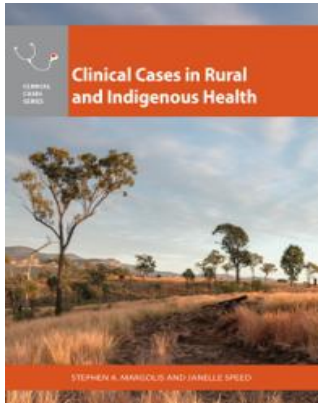

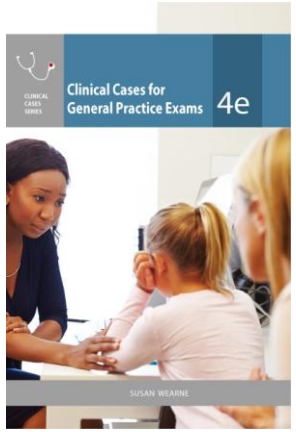

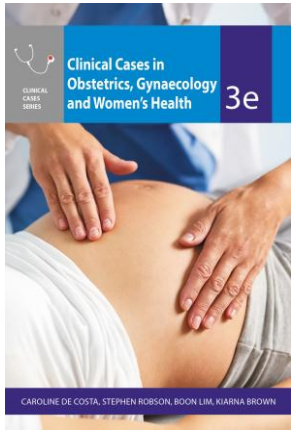

Leading Local Content

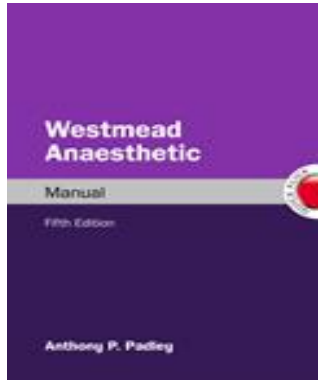

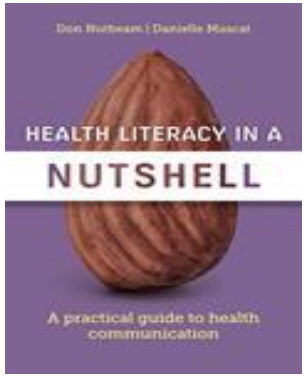

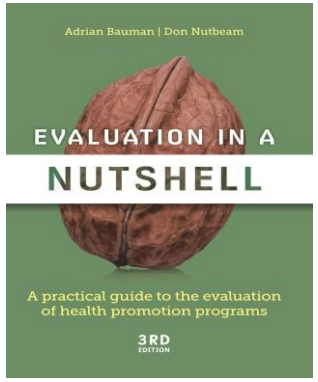

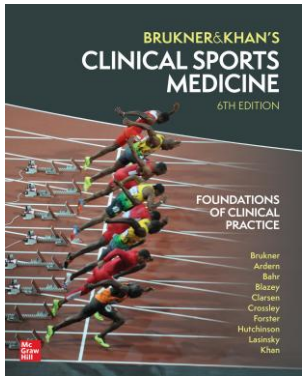

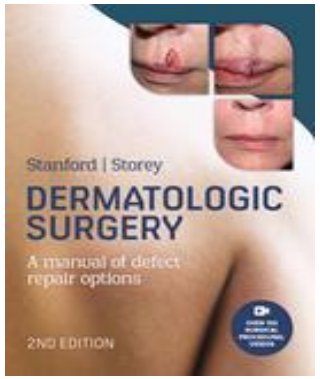

Local Patient Education

John Murtagh's Australian and NZ Top 600 Presenting Primary Care Patient Information

Comprehensive interactive resources for all medical specialties

- Allied Health
- Anaesthesiology
- Behavioural Medicine
- Cardiology
- Critical Care Medicine
- Dermatology
- Emergency Medicine
- Endocrinology
- Family Medicine and Primary Care
- Gastroenterology
- Haematology/Oncology
- Infectious Diseases
- Internal Medicine
- Nephrology
- Obstetrics and Gynaecology
- Occupational and Environmental Medicine
- Ophthalmology
- Paediatrics
- Pharmacology
- Pharmacy
- Physical Medicine & Rehab

- Physiotherapy
- Radiology
- Rheumatology
- Surgery

Our solutions in numbers

1000+
Book titles

12,500+
Cases

6,500+
Drug Monographs

14,000+
Videos and multimedia resources

490+
3D animations

9,800+
Patient Information Guides (10 Languages)

1,400+
Infographics

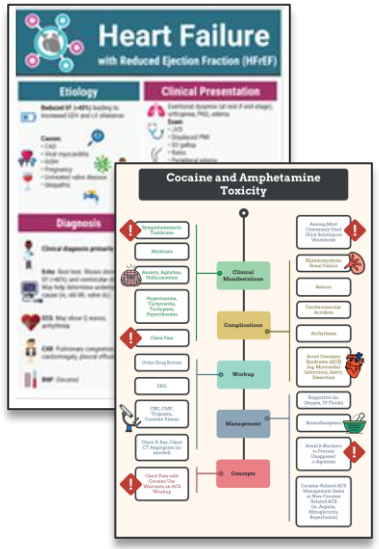

600+
Audio podcasts

1,100+
Differential Diagnoses

Interactive Learning Tools and Procedural Videos

A unique collection of examination and procedural videos, patient safety modules, lectures, podcasts and audio files, animations, anatomy modules, infographics, high resolution images, and more.

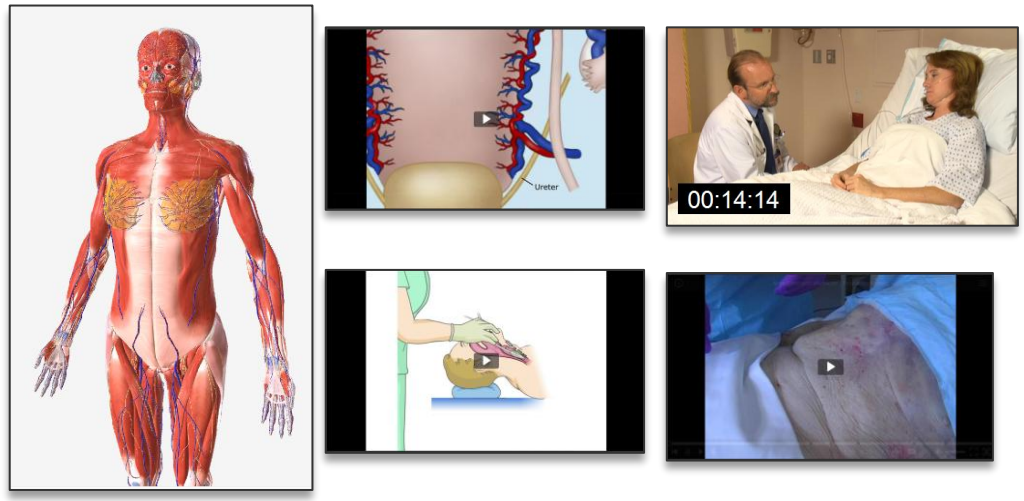

Infographics

Podcasts and Audio Files

Videos and Animations

Quick-reference and differential diagnostic tools

A wide variety of quick-reference and differential diagnostic tools to facilitate decision-making at the point-of-care.

Clinical Reviews and concise medical reports

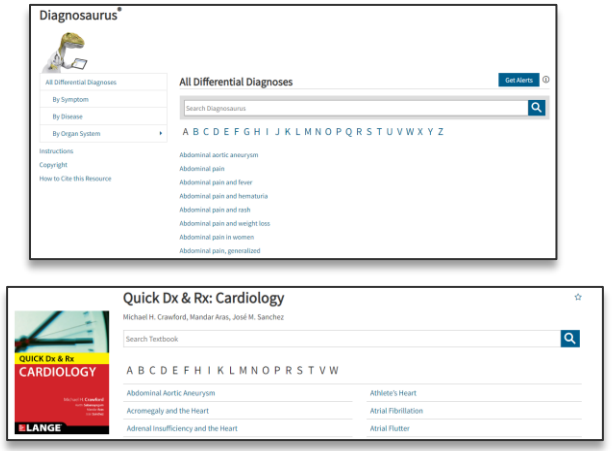

Quick Answers

Guidelines and Handbooks

Differential Diagnoses

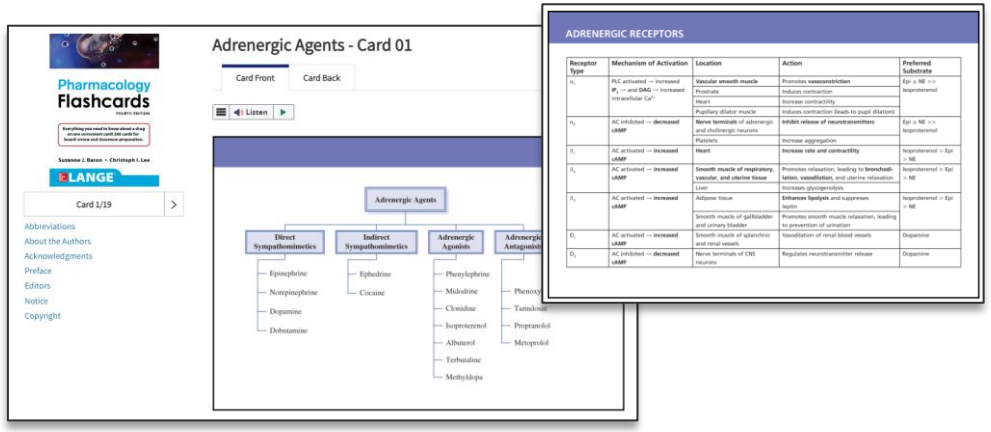

Trainee Assessment Tools

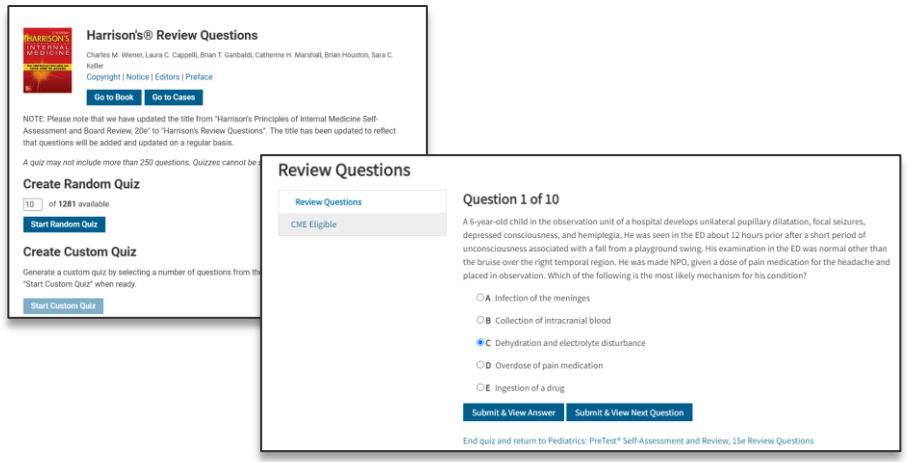

Test Prep and Self-assessment

Comprehensive test preparation with thousands of self-assessment Q&A and great collections of study materials for certification and recertification exams.

Flashcards

Self-assessment Q&A

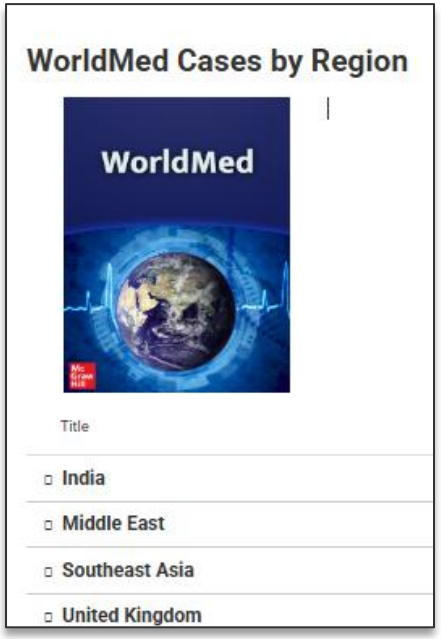

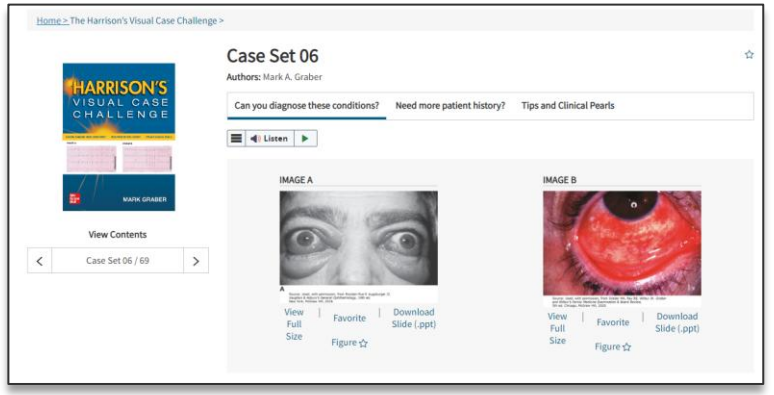

Trainee Case-based Learning Tools

Cases

Thousands of basic science and clinical cases to explore and acquire knowledge and skills needed to master real patient scenarios.

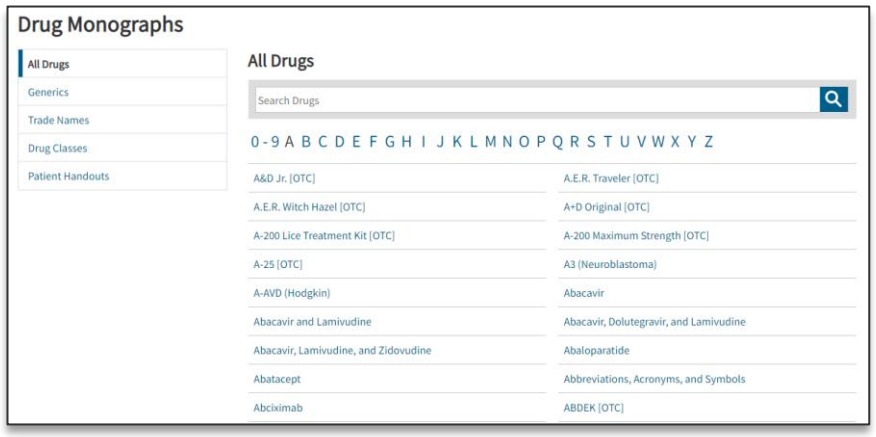

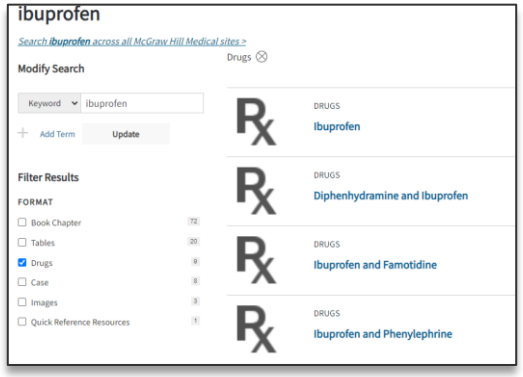

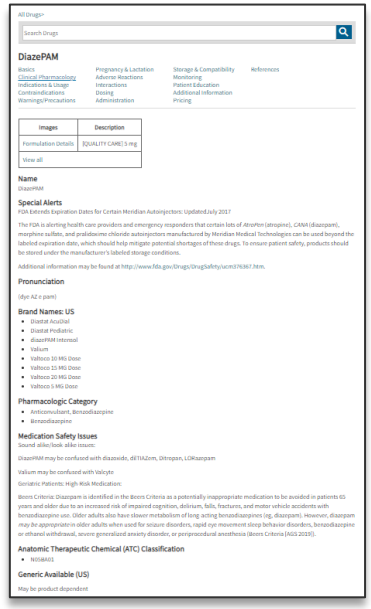

Hospital Drug Database

Look up dosing, indications, and adverse reactions quickly for generic and brand-name drugs, with printable patient handouts.
